

How the Blockchain is Transforming CES Business

WHAT IS IT?

The Blockchain infrastructure is rewriting the rules for every type of business imaginable. From gaming to supply chain, telecom to B to B, the interest in moving to the blockchain is pervasive.

At CES Asia attendees will get to experience hear from you and your Blockchain expertise. First we'll have an interactive game style show where our host, Michael Terpin will engage in the audience in a Q&A type game about your Blockchain. Then you will make a formal presentation about your company's philosophy.

There will be three sessions:

- Gaming and Entertainment on the Blockchain
- IOT and Telecomm on the Blockchain
- Supply Chain and Contracts on the Blockchain

COST:

\$3,000 Participation Fee in one session
 \$7,500 Participation Fee with 10'x10 Turnkey Book

SHOW DATES AND TIMES:

June 13 & 14

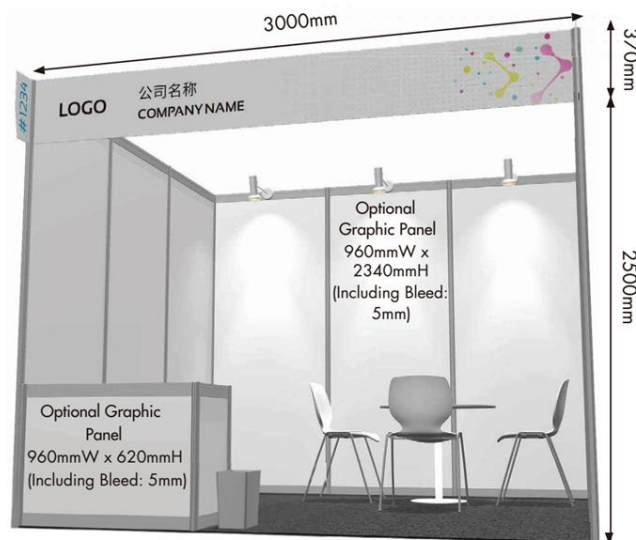

ABOUT CES ASIA:

With 500 exhibiting companies, 1,200 member of the media and expected attendance of over 40,000, CES Asia 2018 is the premier event for the consumer technology industry in China. CES Asia showcases innovation across several vertical industries in the Asian marketplace while providing companies, from leading Chinese and global brands to startups, a platform to create partnerships, build relationships and reinforce their brand. Industry executives, global buyers, government officials, market analysts, retailers, media and a limited number of consumers from China will witness the latest products and technologies while celebrating the innovation that defines the industry
